

TURANTO RELEASE DOCUMENT

Turanto – Jan 07, 2020 Release 13.7.1

Jan 07, 2020 Release

Overview

- This new release includes some new features, enhancements and bug fixes.

Release Details

Enhancements (Turanto)

- Turanto now have **Subsystem** on launch page to enable Notifications in generated application. The name of subsystem is **Enable system notification feature (beta)**
- Some minor changes in Turanto Home/List page - UI

Features and improvements (Generated Application)

- Enhancements in Notification System (Beta)
- Now you can set a Text property as Mandatory in Turanto model
- Now you can use derived properties as display properties
- In company profile, now you can save footer links
- Now you can show associations as 'Details Only' in Turanto model

Bug fixes (Generated Application)

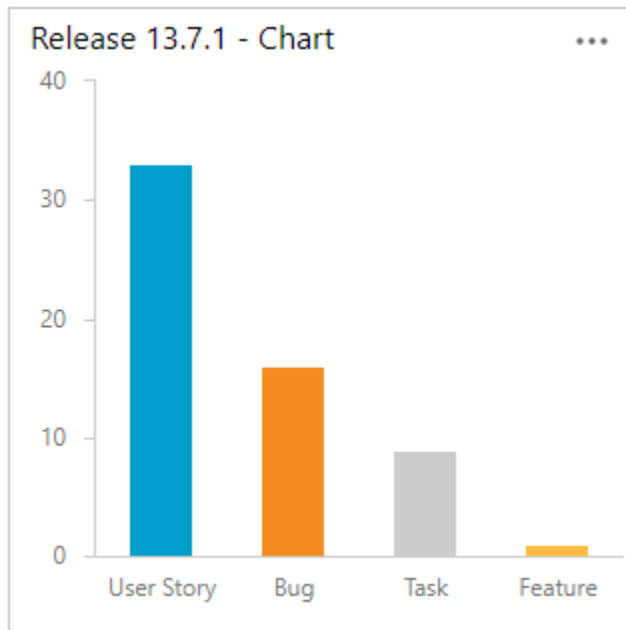

- Security issue resolved in FLS. Users were able to see hidden properties using 'Inspect Element' in Faceted Search entity list page
- Locked records (BR) was not showing the eye icon
- Email Feature - UI Issue, pagination button had different color from others
- Users were getting Null Reference Exception in Excel sheet during import
- Users were not able to access application with Active Directory – there were too many redirects
- Refreshing the reports page was giving error.
- None of the icons were visible
- Biz Rule UI > Hidden Groups rule - Link or button was not available to open popup to update list of groups/tabs
- Faceted Search UI issue - In Specific Field Search criteria, remove button was not visible to delete condition
- System was not picking up URL from App Setting for SSRS report hyperlink
- Biz Rule > Hidden Properties - On edit/details page, list of selected properties was not visible. Only icon was available to open popup.
- Biz Rule > Hidden Groups - On edit/details page, list of selected groups is available, but link was not available to open the popup for updating groups
- When users delete an app setting in the application settings page, the data was deleted but the popup was not closed
- Pagination was not proper in the SyncData page
- Resolved "There is no build provider registered for the extension '.cshhtml' " error

Last Release Date: Dec 11, 2019 (13.6.9)
