

TURANTO RELEASE DOCUMENT

Turanto – April 24, 2020 Release 13.7.9

April 24, 2020 Release

Overview

- This new release includes some new features, enhancements and bug fixes.

Release Details

Bug fixes (Generated Application)

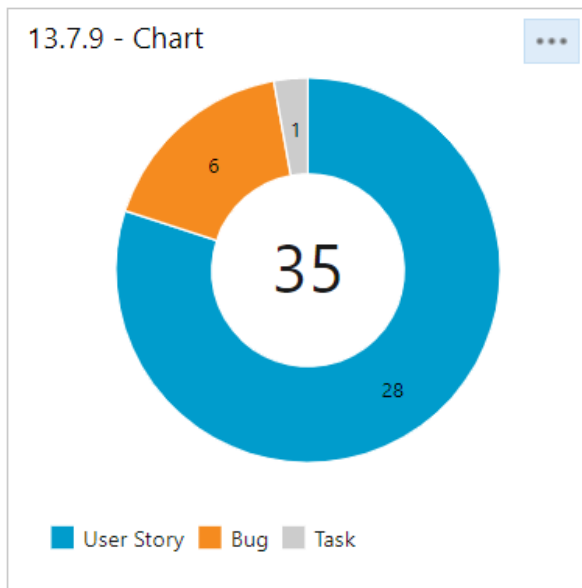

- Gallery view related bug fixes and enhancements.
- Number property that is read-only shows too many digits
- Grid edit - user should not have to delete the default zeros first.
- Leave date field on grid blank when the property is hidden (now showing 01/01/0001).
- If you hover-over on both 'eye' and 'pencil' icon, 'edit' message appears for both icons. 'View' should appear for 'eye' icon.
- 'Quick Edit' option should be in black, otherwise, it gives the impression that the option is not enabled.
- Icon alignment issue in application.
- Restrict dropdown on inline grid edit does not work.
- Set Default Home page for role not working.
- When we toggled the sidebar the last entity count is not visible in side bar.
- In Bulk update page - correct messages
- Application does not inform the user that some rows have been imported when errors are found.
- When importing, the message reads "we have received in the Excel file."; either delete "in the Excel file" or replace with "in the CSV file".
- Correct the messages on confirm page of import page, when new records are found for mandatory/non-mandatory dropdowns.
- Server error : When try to upload 'error' csv (for boolean field being 'YES' than 'TRUE'), the error message I received was 'server error' not 'exception alert'.
- Import excel.csv page, hide 'Confirm & Continue Import' button instead of disabling it in case of any error.
- New record on inline Edit- LastRow dropdown hidden behind scrollbar
- Quick add popup business rule and validation alerts not showing.

Last Release Date: April 10, 2020 (13.7.8)

Technical Change Summary

Application Version	Turanto 13.7.9
Screen Updates	NA
DB Updates	NA
Data Update	NA
Stored Procedure Updates	N/A
Package Updates	N/A
Process Updates	N/A
Code location	SVN local
Documentation updates	None
