

# TURANTO RELEASE DOCUMENT

Turanto – July 13, 2020 Release 13.8.8

## July 13, 2020 Release

### Overview

- This new release includes some new features, enhancements and bug fixes.

### Release Details

#### Enhancements (Turanto)

- Make default value for mandatory date time property as optional.

#### Bug fixes (Generated Application)

**Last Release Date:** July 1, 2020 (13.8.7)

- Company Profile update issue
- Metrics data issue, if two lists are selected of same entity to display on entity home page then only one is displayed
- Launch generates a duplicate entry for the Entity Home page
- Data Metric defined on one entity and enabled for that entity home page only, but it's showing on all entity home pages
- Data Metric issue - created two metrics of same entity on entity home page. First list have no add, tools, filter buttons but second list have that
- Time zone dropdown issue on Email page. Full date time value is not visible
- Time zone dropdown alignment issue on Entity's create/edit page
- Cannot use date time properties in Faceted Search
- Compressed Template - grid edit save icon shows only very faintly
- Create URL feature missing in Turanto in New UI
- Dropdown on grid still moving to right on edit
