

TURANTO RELEASE DOCUMENT

Turanto – Sep 28, 2020 Release 13.9.3

Sep 18, 2020 Release

Overview

- This new release includes some new features, enhancements and bug fixes.

Release Details

Enhancements (Turanto)

- NA

Bug fixes (Generated Application)

- Created URL, renamed an application and then trying to update the company information which gives an error
- Data Metric Issue - Popup to show all queries on clicking View All gives js error
- Issue in associating a user with the client - See Repro Steps for details
- Calculated sums on decimals cause many (caught) exceptions
- Save error on Doc Template record
- The M:M filter dropdown ((Quick) Associate) - no View All - can only search top 10
- Not able to upload company logo or login background
- Image taken from mobile apk cannot be viewed in web application
- Unable to show volunteer name using BR while sending notification in VMS app
- Multi-tenancy issue - If tenant has 1M self association then in other entity record gets lost for non-admin
- when i add data from mobile its not showing - i need to logout from mobile application and again login to view data in entity
- Multi select Text box not working properly
- IsNullOrEmpty message on edit page
- Sorting of records not working properly in dropdown based on a selected property except display value
- Currency Symbol not Showing Properly in Grid data
- Data in 'customized' textboxes disappears after save done by role who cannot see the field through FLS
- Why did the customized fields not show up when I removed the FLS?

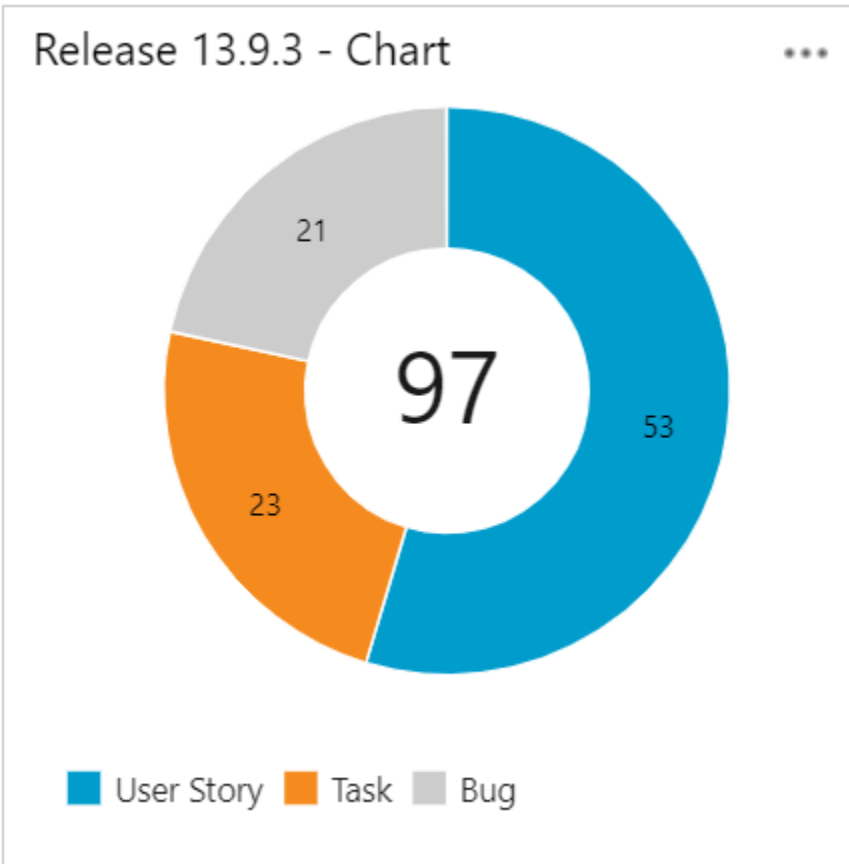

Last Release Date: Aug 28, 2020 (13.9.2)

Technical Change Summary

Application Version	Turanto 13.9.3
Screen Updates	Turanto
DB Updates	N/A
Data Update	N/A
Stored Procedure Updates	N/A

Package Updates	N/A
Process Updates	N/A
Code location	SVN local
Documentation updates	None
