

TURANTO RELEASE DOCUMENT

Turanto – Oct 9, 2020 Release 13.9.6

Oct 9, 2020 Release

Overview

- This new release includes some new features, enhancements and bug fixes.

Release Details

Enhancements (Turanto)

- Expiration time of Turanto account 7 days.

Bug fixes (Generated Application)

- Card View - Showing all properties of inline association while on grid only display property is shown
- Data Metric issue - Record count on Home page goes away after a while if home page as list type metric
- Twilio not working properly
- Change status dropdown as verb button doesn't respect dependent dropdown hierarchy on edit page
- Control id, alt and title attribute for Add button and change status button at the bottom of the page are same, which should be different
- low - Sync icon not showing up on homepage
- low- after clicking on More big space between emergency & variance entities
- Can't delete a property of the same name which is used in one of derived property
- Cannot save record with 1:M inline that has 10+ records on the inline grid
- In business rule edit page, filter dropdown action doesn't show selected dropdown and also popup link to update them
- The enforce change password on first login app setting doesn't work
- The edit Faceted search pop up box in T_FacetedSearch not loading
- In M:M bridge table, the sorting icons show up twice
- "Input string not in correct format" - Page size on Inline grid issue
- Xamarin Android App - Unable to edit records with new generated apps.
- School Invoice - School not found in dropdown
- Cannot delete Association from Entity
- Xamarin Android App - Activity Indicator not appearing while adding/updating records.

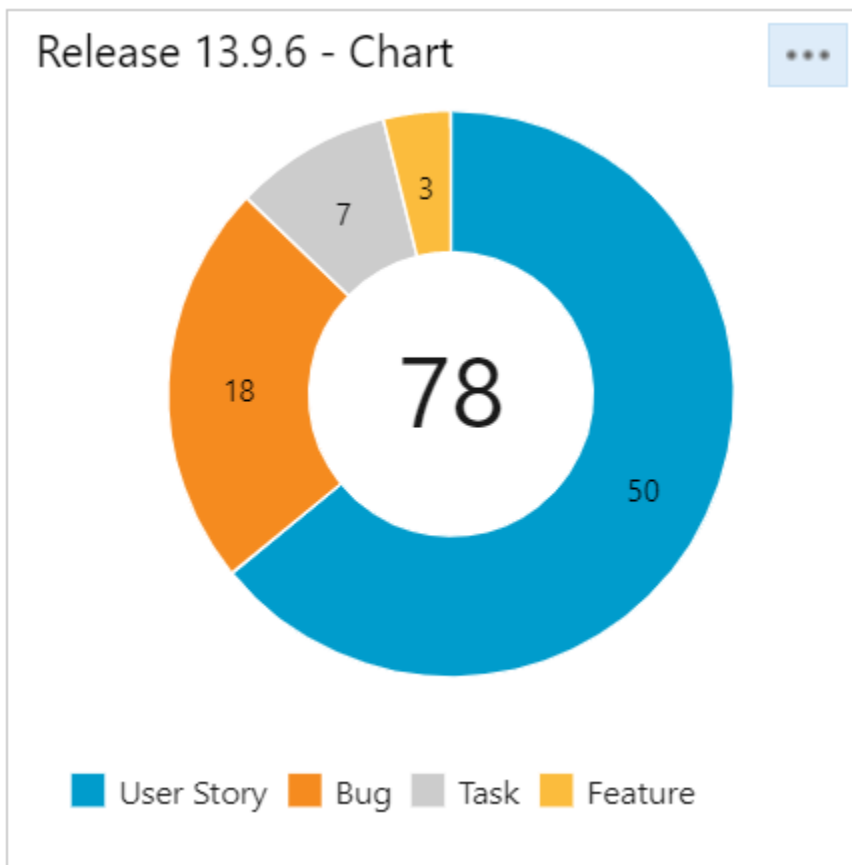

Last Release Date: Sep 29, 2020 (13.9.5)
