

TURANTO RELEASE DOCUMENT

Turanto – July 12, 2021 Release 16.8

July 12, 2021 Release

Overview

- This new release includes some new features, enhancements and bug fixes.

Release Details

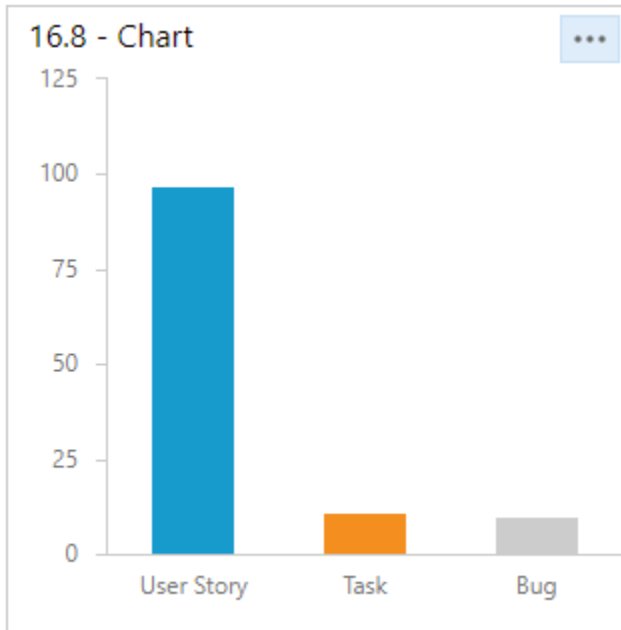

New Features and Bug fixes

- Export Data – Select a record and export all data based on nodes selected in association tree.
- Business Rule related bug fixes.
- Enhancement in Default Entity page to set custom layout, side bar and top bar as default page for roles.
- New video links in Turanto Help section.
- User Defined Page and Dashboard related bug fixes.
- Turanto Model – User can see all the calculated and derived properties at one place. Edit/Delete and code hook can be modified on the same page as well.
- UI Responsiveness changes, Now Generated App UI is better on Mobile browser as well.
- Delete app does not work in Turanto.
- Error page UI improvement.
- Turanto broken links corrected.
